Long intro

Hi there 🙋! I am Claudia, a hearing impaired (👂) community builder and founder, who wants to make the tech industry more accessible and inclusive. The last five years I have been building [women.code\(be\)](#), a supportive network for women who code, who are living in Belgium.

Thanks to my prior career experiences in tech I have been doing a lot of different things that allowed me to grow women.code(be) into the community that it is today. I did everything from web development (mostly specialised in frontend), design (UX / UI) to product management.

More recently, I also started as career coach at [BeCode](#) (A Belgian coding bootcamp), where I play an important part in supporting and guiding bootcamp students, so they can start their career in tech with confidence.
